CLUB CHAT.

The Reapers' club met in the Exponent office, Templeton Building, on June 11th. An interesting paper on the Early History of Canada, was given by Mrs. Margaret Y. Taylor. This was followed by the mention of current events. Club adjourned for two weeks.

American club women abroad this summer will be particularly interested in the Ladies' club in Paris, the only club of French women like unto our own. This club, which has attractive quarters on the Place de la Madeleine, is arranging to entertain club women from all countries during the exposifrom all countries during the exposi-tion. There will be the "eternal tea" on tap every afternoon, of course, the weekly salon, the biweekly club dinner from all countries during the exposition. There will be the "eternal tea" on tap every afternoon, of course, the weekly salon, the biweekly club dinner and the usual lectures ever so often. The club now numbers several hundred members, but the membership dues are not sufficient to meet the expenses their elegant apartments, deficit is met annually by Mme, de Marcey, the founder of the club.

This same Mme. de Marcy will put up a pavilion at the exposition to stand as a model club house for visiting club women. As one French woman writes about it: "It is to show the women of France are, after all, not far behind their foreign sisters in anticipating the

spirit of the twentieth century."

As the woman's club movement does not flourish in France, this "lady's club," as may be impained, was the target for hostilities. It was even called 'disreputable" in the beginning, but it has since won prestige among the social and literary societies. Though alone in its glory, it is certainly not lacking in the spirit of hospitality, as attested by its exposition plans.

Speaking of peregrinating, the white ribboners will also be afflicted with the "wandering foot" this season. They are going to Edinburgh to talk shop—it's the world's convention of the W. C. U .- and will then devote themselves to travel on the continent. The plan was for the official party, headed by the national president, Mrs. L. M. N. Stevens, to sail June 6, arriving at the convention city for the first official conference on June 20. There will be 200 delegates from the United States, and it is expected this number will be doubled by the "go-alongs." Among the delegates will be the vice president at large, Miss Anna Gordon; the cordesponding secretary, Mrs. S. M. D. Fry; the recording secretary, Mrs. C. C. Hoffman, and Mrs. Minnie B. Horning.

The annual moot-point of the white ribboners-the avoidance of Sunday travel-crops out in an interesting way. The steamer which has been chartered for the trip will take over seven days. It has been suggested, however, that the strict Sabbatarians stop off Saturday night on a coral reef and wait for the next boat.

That the new National Federation of Musical clubs is a good thing is evidenced in a communication from the corresponding secretary, Mrs. Thomas E. Ellison, of Fort Wayne, Ind. The federation claims to be a "musical missionary," aiding its thousands of secretary and the secretary an members to a broader musical educa-tion. This is done by furnishing them with courses of study and with star performers from time to time at a less price than they would have to pay were

they not federated. This is what Mrs. Ellison has to say of the practical work of this musical federation: "The club year is drawing to its close and the federated clubs have tested the value of federation. The clubs in small cities and towns have been especially benefited, and are very enthusiastic over the opportunities which have been given them, while to smaller and more or less isolated clubs lacking opportunities of coming into contact with the best in the musical world, the federation offers invalvulable advantages. To all clubs, in fact, the benefits are far in excess of the small membership fee required. "Large clubs, as the Schubert, of St.

Paul, the St. Cecilia, of Grand Rapids, the Fort Wayne Morning Musical and the Tuesday Musical of Denver, are numbered among those that have had more recitals than they could possibly have compassed had they not been federated.

"Clubs that for lack of financial support had decided to give up the struggle, reorganized last fall on learning what the value of federation would be to them, and in addition to the regular programes given by active members have had as many as five artist recitals.

'Clubs federating this spring will have the advantages of engaging their artists for the fall season, and will receive programs, year books and music from the federated clubs, to assist them in arranging the work for next year. The federation also provides a very fine constitution for club use."
